FEDERAL ADVOCACY SPONSORSHIP

Lumber and building material dealers and suppliers nationwide are joining NLBMDA in calling on the LBM community to invest in our industry at a crucial time for federal advocacy. Your support amplifies **the industry's *voice* in Washington** ensuring it is heard when critical decisions are being made. NLBMDA maintains strong engagement with federal policymakers and industry leaders to advance policies that promote a business-friendly environment and drive the continued growth and success of our members.

YOUR SUPPORT ALLOWS US TO:

THE INDUSTRY'S *VOICE* IN WASHINGTON

Our D.C.-based team regularly engages with lawmakers, congressional staff, key regulators, and administration officials, ensuring the voice of LBM dealers is heard at the highest levels of government.

SECURE LEGISLATIVE VICTORIES

This Congress, NLBMDA has fought to turn several industry priorities into law, including:

- Restoring and making permanent key business-friendly tax provisions.
- Expanding pro-housing tax credits to support the construction of hundreds of thousands of new residential units.
- Securing new exemptions expected to remove thousands of family-owned businesses from estate tax liability.

FIGHT REGULATORY OVERREACH

NLBMDA closely monitors the development and review of business and labor regulations, actively engaging to protect LBM dealers from burdensome and costly mandates. Through timely intervention, we work to ensure that the voice of our industry is considered before regulations are finalized.
